

School Governors and Principals briefing

As the first step in the consultation process around the governance of Catholic education in the Archdiocese of Melbourne, we are seeking your insight into the issues that you consider important, to help shape further consultation.

1. 1. Thinking of educational leadership in your Parish, what are some of the key issues that you feel need to be considered?

2. 2. To assist with clear and transparent communications over coming months, what would best assist you in keeping well informed, and supporting you in working with your key stakeholders such as school families?

3. 3. As we consider the future of Catholic education in Melbourne what might be some further considerations you would like to see addressed or raised?
